

Spray of Sunshine[®]

CLIENT HISTORY SHEET AND WAIVER

First Name: _____ Last Name: _____

Address: _____

City, State, Zip: _____

Phone #: _____

Email Address: _____

How did you hear of us: _____

Pregnant: (Circle) No Yes/Maybe (Must consult physician and have approval)

Area of Concern on skin:

Have you ever had a spray tan?: (Circle) Yes No

Booth Spray Tan Tanning Technician Sunless Lotion Sunless Spray

Sunless products used before?: (circle) Yes No

Reaction (if any): _____

Allergies: _____

Asthma/Respiratory Condition: _____

Are you over 17?: Yes No Birthday: ____/____/____

I have been provided with pre, during, and post spray tan care instructions, which I have read and understand completely. All of my questions and concerns have been addressed.

I hereby authorize and direct employees or agents of Spray of Sunshine to perform such tanning procedures as may be deemed necessary or advisable, and I have been honest and accurate about the information that I have provided on this waiver.

I understand that I am taking sole responsibility for any reaction that I may have to the tanning solution, staining to my clothing, and/or personal belongings. I am using these services at my own risk.

SPRAY TAN CONSENT FORM

Please complete, read, understand, and sign the following:

Are you allergic to latex? Yes or No

Are you under a doctor's care presently? Yes or No If yes, please list the medical condition: _____

1. Spray tanning accomplished by application of a solution containing the active ingredient: DHA (Dihydroxyacetone). DHA is considered to be safe and has been FDA approved for cosmetic use. DHA is listed in the Food, Drug and Cosmetic Act (FD&C Act) as a color additive for use in imparting color to the human body. However, its use in cosmetics - including sunless "tanning" products - is restricted to external application.
2. The darker your skin, the darker you can tan with a spray tan. Overexposure to DHA does not cause skin damage but can result in possible orange distortion of the skin. Too much spray can result in an orange tint, please follow the technician's guidance on how much she is going to spray.
3. Cosmetic bronzers in sunless tanning solution will transfer to your clothing. Although, the cosmetic bronzers in Spray of Sunshine's sunless solution is water soluble and will wash out of clothing, the DHA in the tanning formula may permanently stain what is worn during the tanning session. We recommend that clients wear **DARK, LOOSE** clothing following a spray tan to prevent any rubbing or smearing of the spray tan solution that was applied.
4. Follow the staff's breathing instructions as to avoid inhaling or ingesting the sunless product. You will be prompted when to close your eyes and hold your breath while spraying.
Note: The FDA advisory recommends that a client does not tan in the nude.
5. You will then be airbrushed. This process will take approximately 5 to 10 minutes. Afterwards, your skin should be dry before putting your clothes back on. The solution will give you an immediate bronzing effect. The bronzing effect is a result of a coloring additive in the solution that will remain on the skin until your longer lasting tan develops. When you shower, the coloring will come off to reveal your actual tan beneath. I recommend showering 8 - 12 hours after the session, preferably letting the solution develop overnight. *Use dark sheets if going to bed before showering.
6. Following your session, avoid: wearing tight clothes and shoes, leather, perspiring, and water.
7. All people are different. All ingredients in the product used in this procedure are intended for cosmetic use and generally regarded as safe. There are, however, occasions where individuals may be allergic to one or more ingredients in the spray tan solution. If you have allergies or concerns please ask technician about ingredients prior to application or request a test patch.
8. Be advised we recommend having a trial spray tan session with us prior to being sprayed for photographic sessions, modeling assignments, weddings, etc.
9. **Warning** - This product does not contain a sunscreen and does not protect against sunburn. Repeated exposure (sun, UV rays, etc.) of unprotected skin may increase the risk of skin aging, skin cancer and other harmful effects to the skin even if you do not burn.
10. **ALL SALES ARE FINAL.** Spray of Sunshine reserves the right to cancel packages without reimbursement for clients who are verbally abusive, act in inappropriate behavior, do not adhere to the salon rules, and/or act in a destructive or harmful manner. Packages are sold on a per person basis and are not sharable or transferable. This Process has been explained to me and I hereby agree to allow a technician of Spray of Sunshine, to apply the Spray Tan solution to my skin. To my knowledge, I have no medical condition or allergy, which would preclude me from having this procedure done. I agree to hold Spray of Sunshine harmless of any and all medical complications that may arise. I have been advised to discontinue use if any reaction occurs.
I have read, fully understand and will comply with all instructions this Client Release and Informed Consent Form and hereby agree to accept all of the provisions.
